

AI Services

Practical AI solutions that deliver measurable business value

AI isn't just a buzzword—it's a practical tool that streamlines operations, accelerates decision-making, and frees your team to focus on high-value work. Vivitec helps you implement AI solutions that fit your business, not the other way around.

AI-NOW ACCELERATE

- Full Microsoft Copilot deployment in 90 days
- Readiness assessment and environment prep
- Security, compliance, and data governance setup
- Team training and adoption support

AI STRATEGY & ROADMAP

- Assessment of AI opportunities across operations
- Prioritized implementation roadmap
- ROI modeling and business case development
- Technology stack recommendations

CUSTOM AI SOLUTIONS

- Workflow automation and process optimization
- Integration with existing systems
- Data pipeline design and implementation
- Ongoing optimization and support

AI READINESS ASSESSMENT

- Data quality and structure evaluation
- Security and compliance gap analysis
- Infrastructure and licensing review
- Clear next-step recommendations

Why Vivitec

Strategy + Implementation

We don't just hand you a plan—we build it with you and manage the execution.

Business-First Approach

We focus on outcomes and ROI, not technology for its own sake.

Proven Expertise

Microsoft Solutions Partner with real-world AI deployment experience.

Let's talk about what AI can do for your organization.
