

AI Services Overview

Practical AI solutions that improve how your team works—strategy, implementation, and ongoing support under one roof.

AI-NOW ACCELERATE

Deploy Microsoft Copilot across your organization in 4 weeks—securely and strategically.

- ▶ Pre-deployment security assessment
- ▶ License optimization and tenant configuration
- ▶ Change management and training program
- ▶ 30-day post-launch optimization

AI-BUILD CUSTOM

Purpose-built AI solutions that solve your specific business challenges.

- ▶ Custom automation and workflow integration
- ▶ AI model development and fine-tuning
- ▶ Data pipeline design and implementation
- ▶ Ongoing model monitoring and refinement

AI-SECURE FOUNDATIONS

Lock down your AI environment before deployment—compliance, data protection, and governance.

- ▶ DLP policy configuration for AI tools
- ▶ Compliance framework alignment (HIPAA, SOC 2, CMMC)
- ▶ Data classification and sensitivity labeling
- ▶ AI usage monitoring and audit trails

AI-CONSULT STRATEGY

Develop a clear AI roadmap aligned with your business goals—without the hype.

- ▶ AI readiness and capability assessment
- ▶ Use case identification and prioritization
- ▶ ROI modeling and phased implementation plan
- ▶ Vendor evaluation and technology selection
